

# Got Character?

## COOL TUNES FOR KIDS

Eric Herman is an award-winning musician, songwriter, and actor. With an approach of comedy and creativity, Eric has students listening and singing along in moments.

Two outstanding assembly programs are available for K-6:

**Got Character?** is a terrifically motivating program communicating life skills every child needs to succeed. This program begins with the familiar idea "you are what you eat" and expands to say that we are also what we do, say, think and choose.

Eric encourages students to do the best they can, think positively, have goals, eat healthy, exercise, and be kind to others. *Got Character?* is a wonderful Character Education program, and includes many aspects of living well: good health, bravery, responsibility, treating others with respect, and using time wisely.

Eric also offers a great problem-solving and creative-thinking program:

**Thinking Outside the Box** includes fun songs, interactive segments, as well as puzzles and trick questions to encourage children to think and discover in new ways. In this program, Eric teaches creative thinking and problem solving strategies like: brainstorming, expecting the unexpected, perseverance, and more.

*Thinking Outside the Box* emphasizes the need for students to become well-rounded in their learning and to be willing to explore ideas from all aspects of their education. Eric will teach your children to use their own inspiration and creativity in whatever ways they need throughout their lives.

Both of Eric's programs: include interactive songs, allow non-stop chances for participation, and meet curriculum standards in every state. Eric's style of humor enables him to convey important concepts in powerful and entertaining ways. Eric Herman's message is easy for children to grasp and will leave them wanting more.
