Outstanding School Assemblies

## Got Character?

Cool Tunes for Kids with Eric Herman

***Comedy and interactive songs engage students to help them learn quickly and easily.***

Once students start listening, they start learning! Bursting with comedy, creativity, interactive songs, and non-stop participation, important concepts are conveyed in powerful and entertaining ways. Students begin singing along in moments and without realizing it, they learn about creative thinking and living a positive and healthy life!

***Got Character? motivates and inspires living a positive, healthy life.***

Eric's message is we are what we choose, and he encourages students to: do the best they can, think positively, have goals and perseverance, eat healthy and exercise, and be kind to others. Got Character? is a great "Character Counts" program, and includes many aspects of living well, including: bravery, responsibility, and treating others with respect.

***Thinking Outside the Box encourages creative thinking and problem-solving.***

Includes fun songs, interactive segments, and trick questions to encourage students to think and discover in new ways. Eric teaches creative thinking and problem solving concepts such as brainstorming, expecting the unexpected, and perseverance. This program teaches children to use their own inspiration and creativity in whatever ways they choose to or need to throughout their lives.
