

Diversity Circus

Circus-themed character assembly teaching we're all different and all the same!

It's not just an engaging circus themed school show! And, it's not a normal character education assembly. While most focus only on defining character traits and explaining how to use those traits, **Diversity Circus** goes much deeper. It's a powerful character show that teaches students everyone belongs.

A proven-effective elementary character education program.

"Be Fair, Be Aware, Include others, and use Respect" are the four lessons students will learn during **Diversity Circus**. This proven-effective elementary character education program also covers: Dr. Martin Luther King Jr.'s character message, Cultural Diversity, Diversity in the Classroom, Being Fair, and more. It's perfect to honor the MLK Holiday, Black History Month, and to support your PBIS and anti-bullying programs.

Tons of audience participation, comedy, magic, and non-stop action keeps students engaged.

A lion, a mouse, and a giant chicken help teach the lessons led by Smudgy the Clown and her ringmaster sidekick. Your students will identify with Smudgy as the comic relief during this wacky four-act circus show. One student will become the World's Strongest Kid, another will become partially invisible. And two more will transform into one another while dressed up as a mouse and lion. Your entire school will be laughing so much, your students won't even realize they're learning!

Audience: K-6 **Capacity:** 400

Presentation Time: 45 minutes
during set-up time.

Set-Up Time: 45 minutes. Please ensure performance space is clear and empty of classes

Take-Down Time: 30 minutes

Presentation Area: Brightly lit performance space; minimum area of 8 ft. x 20 ft. Performance space can be stage or floor-level; floor level is preferred. If performance space is floor level, please seat students on the floor and not in chairs. If the performance area is a stage please make sure there are stairs for easy volunteer access to the performance area.

Assembly Requirements: Nearby electrical outlet or extension cord. Depending on your location, you may be asked to provide a PA system with RCA-jack input..
