

TALES FROM A BICYCLE SEAT

Take Students on a Spin Around the World

Multi-media storyteller, musician, and adventure cyclist George Maurer presents Tales from a Bicycle Seat, a cultural exploration of his epic journeys across the USA, Iceland, Patagonia, Sri Lanka, Canada, and Vietnam.

Inspires Students to Embrace Diversity

This Virtual and in-person School Assembly and Summer Camp Show touches on diversity, cultural exchange, character education, growth mindset, geography, world cultures, ecology, global environment, climate change, health and wellness, bicycle safety and much, much more.

Part educational, part environmental, part inspirational, and all around engaging.

This program is a blended visual arts experience that includes storytelling along with video experiences from the viewpoint of a bicycle seat. Via drone, GoPro, and modern film technology, students can spin along with George as he shows, up close Icelandic glaciers, Patagonian mountains, a Vietnamese train ride, a Sri Lankan elephant refuge, a fishing village in Newfoundland, or his first-hand experience descending Pike's Peak!
